Nigel,

Thank you very much for the lovely letter and for the record, you are the first person who writes a handwritten letter to me since I became ED of OBM! In fact, I could <sup>not</sup> remember when was the last time I ever received a handwritten letter....

I am very proud of you when you said "I am OK, sir" that night when we met at the Medical Bay.

That is a mark of a great person and looking at how you handle the crisis, I am looking at a great leader and more important a good person.

Take care of your parents because of them, you are what you are.

All the best and regard from us.

Yours sincerely,  
  
(AHMAD FARID)
